

# GEOMETRY

*(Published)*

A. Grothendieck

This edition is a collection of A. Grothendieck's published works on geometry reunited by Mateo Carmona. Remarks, comments, and corrections are welcome.

<https://agrothendieck.github.io/>

Typeset with  $\text{\LaTeX}$  and the fabulous *memoir* class. Composed with Bitstream Charter for the text type and Paul Pichaureau's `mathdesign` package for the math type. All diagrams and illustrations were made with Till Tantau's TikZ (TikZ ist *kein* Zeichenprogramm) and the `tikz-cd` package.
